Dear Jamul Indian Village Development Corporation,

On behalf of the Crohn's & Colitis Foundation and the 57,000+ patients in our area whom we serve, we would like to send our heartfelt appreciation your way! Thank you for your donation of \$1,410.00 on December 9, 2019, to the Greater San Diego and Desert Area Chapter's 2019 Team Challenge. Your generosity has enabled the Foundation to continue working toward curing Crohn's disease and ulcerative colitis, as well as, providing education and support for the more than 3 million Americans living with these diseases, including a summer camp for children with IBD.

At the Foundation, we provide critical services to help those living with and caring for those with Crohn's disease and ulcerative colitis. One example is the Irwin M. and Suzanne R. Rosenthal IBD Resource Center (IBD Help Center) that serves as a lifeline for patients, family, friends, and medical professionals. The IBD Help Center is staffed by Master's-level health professionals and has a toll-free number (1-888-MY-GUT-PAIN), e-mail communication, and LiveChat available on the web.

We are currently investing approximately \$30 million in research each year, making huge strides in the search for improved treatment options and cures. This research has led to key discoveries including more than 200 genes affiliated with IBD, and 16+ genetic pathways. There are several new treatments in the pipeline, including some in our San Diego community that are primed to make a huge difference in the lives of our patients. We are proud to currently have more than \$3.5 million invested in active research grants right here in San Diego. The science is progressing at a rapid pace, and our ability to fund this research at the same pace is dependent on supporters just like you. Your support has been essential to the success of these mission-critical programs.
